Connect
DocuSign
to HP Workpath

Save time by accessing software solutions directly from your MFP.

Description

Connect to DocuSign allows users to quickly create and send DocuSign envelopes to any recipient straight from the HP MFP. Users can save scanned documents for later use, create or save documents using existing templates, print attachments, and easily access documents directly from the HP MFP control panel on a single screen.

Key Product Features

Connect to DocuSign allows you to login to your authenticated DocuSign account directly from your HP MFP. With this app, you can print straight from the control panel. The app also allows you to scan and save instantly, scan and send directly to recipients, and scan with a template.

Direct Connection

Connect to DocuSign allows you quick access to all of your DocuSign documents straight from your HP MFP. Directly connecting to DocuSign saves time spent moving back and forth between printer and desk by allowing you to print directly from your account within the control panel.

Easier Scanning

With Connect to DocuSign, you can scan and save documents instantly to your DocuSign account. Once the document is saved, you can send it directly to your recipients. You can also use templates for scanning, saving valuable time.

in time tec

In Time Tec offers HP Workpath to streamline document workflows by connecting multifunction printers with key business apps, boosting efficiency and productivity.
