Connect
SmartVault
to HP Workpath

Save time by accessing software solutions directly from your MFP.
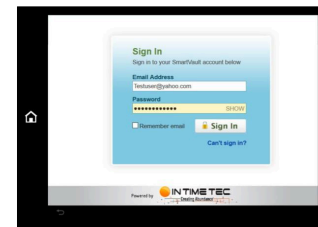

Description

Connect to SmartVault is a dedicated application that makes it easy to securely scan and upload important documents directly into SmartVault.
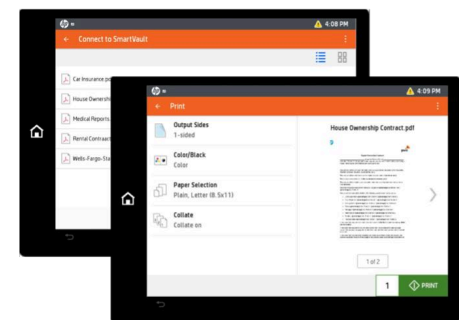

Key Product Features

Direct Login

Users can login to Connect to SmartVault from any Workpath-enabled HP device. They can then access all existing accounts, vaults, folders, and uploaded files.

Scan and Print Documents

Using any Workpath-enabled HP device, users can scan and print documents directly to and from their SmartVault account. Instead of scanning, emailing, and saving, users can choose the folder and scan the file directly to that destination.

Added Document Security

Allowing users improved SmartVault access removes unnecessary steps in the document upload process, and lowers the chance of human error and risk of confidential documents leaking.

In Time Tec offers HP Workpath to streamline document workflows by connecting multifunction printers with key business apps, boosting efficiency and productivity.
